I like the idea of having standard and consistent software and processes in place.

Subject: A Couple of Additional Amendments

Hi Jeff,

I have a couple of additional Voter ID amendments to have drafted. The first would just add to the sub I already requested on the MOVE provisions. Could you also add to that amendment that state elections would also have to be MOVE compliant?

The second would be to insert a trigger before funding would be allowed for Voter ID. I don't know if this is possible, but I was thinking that the trigger could be the deposits required under 2011 AJR 21 (Tranel), which requires that the state set money aside into the budget stabilization fund. This is a proposed constitutional amendment that recently passed the Assembly. Would that work?

Lastly, we were thinking about doing some sort of sub amendment on election management as opposed to Voter ID. More specifically, we are trying to highlight the issues that were uncovered in Waukesha County during the recent Supreme Court election. Could we do something like requiring universal software for election management? I am open to suggestions on this-we have really only thought about the larger issue, not the specifics.

I realize that these requests are a bit open ended so if you have any suggestions they would be greatly appreciated. Please let me know if you have any questions. Thanks again for all of your help Jeff.

Hi Jeff,

Here are the specifics of AJR 21:

This proposed constitutional amendment, proposed to the 2011 legislature on first consideration, requires the legislature to establish the fiscal responsibility fund in the treasury, and to deposit into the fund the greater of 1) one-half of 1 percent of the actual general fund tax collections in the second preceding fiscal year; or 2) the amount, if any, by which the actual general fund tax collections in the second preceding fiscal year exceeded 6.5 percent of state personal income in the calendar year in which the second preceding fiscal year began.

Please let me know if you need anything else. Thanks again for all of your help!

Chris,

As of this point, we do not have the new sub introduced. When a new sub comes in, we will start drafting amendments to that. I have only three requests from you. I have done your sub on elections administration which should still be good. We need to talk about the other two drafts you requested. I need to clarify the trigger-- there is no funding in ASA 1 or the original bill. I can do another sub consisting of the MOVE Act changes only. I assume this is minus the primary date change. I cannot apply the MOVE Act changes to state elections without a tremendous amount of work because many of the sections treated only apply to military or overseas voters.

I will call you Tuesday AM.

Hi Jeff,

As you have probably heard, the Joint Finance Committee passed a new substitute amendment this afternoon that made several changes and deleted a number of the provisions included in the original substitute amendment passed in the Assembly Elections Committee. Could you please redraft the amendments that we have requested to the new sub? In

• addition, my guess is that a number of the amendments that we had originally requested will now be inapplicable to the new sub. Please feel free to disregard those amendments. Lastly, the new sub amendment deletes all of the MOVE Act requirements. We would like to have a sub similar to the one that we originally requested that contains the MOVE requirements ONLY. I'm sorry to make your life more difficult-please let me know if you have any questions. Thanks and have a great night.
